

Manual Balancing 3-Way Kit - V3IB Submittal

PRODUCT DESCRIPTION: The USIS V3IB Manual Balancing 3-way Valve Kit is a packaged and partially preassembled grouping of components required to complete installation of a terminal unit. Temperature control valves, piping, and coils are supplied "by others". Mounting and testing of the customer supplied TCV is available at an extra expense.

COMPONENT DESCRIPTIONS			
SUPPLY	RETURN	RETURN	BYPASS
			
<p>Model IVY: The IVY has an integral full-port ball valve, wye strainer, and union. The IVY has five 1/4" taps for accessory installation, and a by-pass tap. The strainer cap has a 1/4" tap for a hose-end drain with a 20-mesh stainless steel screen.</p>	<p>Model CBV: The CBV combines a ball valve/venturi by union end and provides accurate flow measurement. The CBV comes standard with dual pressure/ temperature ports, and a handle memory stop. The CBV may also be used in by-pass.</p>	<p>Model AU: The AU is a brass accessory union, rated at 600 WOG. The AU contains two predrilled 1/4" ports positioned 90° apart for accessory installation. The AU comes standard with 1/4" plugs unless otherwise specified.</p>	<p>Model IBU: The IBU is an integral full-port ball valve and union rated at 600 WOG. The IBU has three 1/4" taps for accessory installation and a memory stop. IBU comes standard with 1/4" plugs unless otherwise specified.</p>
